MEMORANDUM FOR : Development Branch, DFD

SUBJECT : CHALICE - Perkin-Elmer Personnel Situation at [REDACTED] 25X1A

25X1A  
25X1A

1. During [REDACTED] Hycon team leader at [REDACTED] recent visit to Project Headquarters, he was asked to comment on the Perkin-Elmer personnel situation at [REDACTED] said that the two P & E technicians are working hard and appear to be capable. However, due to the daily flight schedule, usually three missions per day, the P & E workload is rather heavy. Due to R & E, [REDACTED] indicated that only one P & E technician is available for two to three weeks each month. As a consequence, the P & E maintenance effort may suffer somewhat. [REDACTED] would recommend increasing the P & E team at [REDACTED] to three technicians in order to insure optimum P & E support and performance.
